### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christian Heausler on 4/26/05.

The application has been amended as follows:

claim 1, line 1, after "assembly", --, wherein the apparatus is adapted to be placed on a seabed, the apparatus--; and

claim 10, line 1, after "assemblies", --, wherein the apparatus is adapted to be placed on a seabed, the apparatus--.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or suggest a flying lead deployment apparatus comprising a first ROV flying lead interface connected to the frame assembly and one end of the flying lead, and a second ROV flying lead interface connected to the reel assembly and the other end to the flying lead.

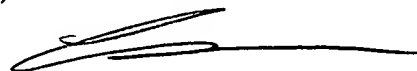

The closest prior art, Colyer #6,796,261, discloses a deployment apparatus 11 comprising a ROV interface 31; however, the interface 31 is not connected to one end of the flying lead. Furthermore, Colyer is silent to a second ROV interface connected to a reel assembly and the other end of the flying lead.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frederick L. Lagman whose telephone number is 571-272-7043. The examiner can normally be reached on Monday-Friday 9:00am to 5:30pm.
